

7. Immunization Services

Routine (BCG, Pentavalent, Measles Mumps Rubella (MMR), Inactivated Polio Vaccine (IPV), Oral Polio Vaccine (OPV), Pneumococcal Conjugate Vaccine (PCV)

This service aims to protect all babies under one year old through the preventive measure against death, diseases and disabilities. The program also contributes to global public health efforts such as polio eradication campaigns and helps safeguard communities against outbreaks of preventable contagious diseases.
